# FRIUL MOSAIC

The culture is handed down,  
the knowledge evolves,  
Friul Mosaic imagines,  
designs and realizes mosaics  
carrying out an art  
ancient and indestructible.  
The most fascinating works of art

IV. INTERPRETATIONS .....	101

They are not worn  
only because of their weight.  
They are truly works of art  
of small dimensions,  
provide the finishing touch to the spaces  
giving them an aspect both  
sophisticated and transformed.

They attract attention  
and know how to be protagonists  
in the "relax" zones  
of homes or public structures,  
just as in antiquity they adorned  
rooms and places of reflection  
and spaces shared with others.
